

JOB DESCRIPTION

JOB TITLE: ERP Developer

REPORTS TO: ERP Manager

LOCATION: Auckland

Job Scope:

- To manage all aspects of the setup and delivery of IT programmes, projects and services
- To improve Solnet's project delivery capability
- To design and develop software for Solnet's clients.

Role and Responsibilities:

- Design and build software (primarily Python) for clients
- Ensure that project milestones and commercial goals are achieved by both Solnet and the client
- Ensure Solnet's software development life cycle methodology is followed through the life of a project, including adherence to QA steps
- Provide mentoring and guidance to junior development staff
- Suggest improvements to Solnet's methodology and techniques
- Keep up to date with Python and other relevant specifications and technologies and at times may be involved in other development technologies
- Performing paid client engagements, sometimes onsite at client's premises
- Be available on call or work outside of usual hours from time to time.

Key Performance Indicators:

- Demonstrated competency with respect to all aspects of software development and the development process within Solnet
- Project milestones are met and project quality goals are achieved
- Satisfied clients
- Demonstrated flexibility of approach in meeting client and Solnet goals
- Contribute to a supportive and innovative team culture
- Excellent feedback from clients and colleagues.

Qualifications:

- Ideally (but not limited to) a Computer Science Degree or equivalent.

Skills and experience:

- A minimum of three years Software Development experience with at least two years Python
- Must have experienced at least two significant business projects
- In depth understanding of the benefits and use of a software development life cycle.

Other attributes

- Demonstrated ability to master new techniques and technologies rapidly
- Ability to plan and manage multiple tasks to reach a successful conclusion
- High level of written and verbal communication skills
- Competence to work well in a team and effectively contribute to the team's success
- Excellent problem-solving abilities
- Self-motivated and self-managing, uses initiative to get things done
- Good interpersonal skills including the ability to communicate and present ideas and concepts
- Able to travel and conduct business outside of Auckland, from time to time.
